Re: Lightwave Communications, LLC
Certification of CPNI Filing (February 6, 2006)
EB Docket No. 06-36
EB-06-TC-060

Dear Ms. Dortch:

Pursuant to the Public Notice issued by the Enforcement Bureau on January 30, 2006¹ and the Commission rules concerning telecommunications carriers protection of the privacy of customer proprietary network information (“CPNI”),² Lightwave Communications, LLC (the “Company”) submits this Compliance Statement and Certificate. Protecting CPNI is an important obligation for all telecommunications carriers and the Company has adopted various operational procedures to assure that all of the CPNI that it holds is protected from unauthorized and illegal use, access and disclosure.

As requested by the Public Notice, the undersigned, as an officer of the Company, certifies based upon personal knowledge that the following Compliance Statement describes the operational procedures and policies implemented by the Company to ensure the privacy of its customers’ CPNI consistent with the Commission’s CPNI rules.

¹ *Enforcement Bureau Directs All Telecommunications Carriers to Submit CPNI Compliance Certifications*, WC Docket No. 05-196, Public Notice, DA 06-223 (rel. Jan. 30, 2006) (“Public Notice”).

² 47 C.F.R. § 64.2001, *et seq.*.

STATEMENT OF COMPLIANCE WITH CPNI RULES

As permitted by the CPNI rules, the Company uses CPNI (1) to bill and collect for services rendered; (2) to protect rights or property of the Company, other users or other carriers from unlawful use; (3) to provide any inbound telemarketing or administrative services for the duration of a call; (4) for the purpose of providing carrier premises equipment and protocol conversion; and (5) in order to provision inside wiring, maintenance and repair services.

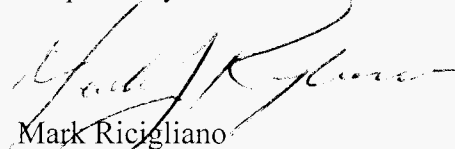

The Company does not use CPNI to market any services to its existing customers. Instead, it uses only billing inserts and messages that do not involve access to CPNI at all.

When customers initiate contact with questions about products and services, the Company representatives verify that the caller is the authorized customer on the account in question by confirming identity. The customer is then asked for permission to access the account records in order to appropriately address questions.

The Company does not share CPNI with any affiliates or third parties in marketing products and services to its customers. The Company also does not sell or share its customer proprietary network information to suppliers, vendors or others for the purposes of marketing non-Company telecommunications or information services. The Company uses an outside billing vendor that is subject to a nondisclosure/confidentiality agreement that insures all CPNI is kept confidential.

The Company has implemented policies that require its employees to protect the confidentiality of CPNI. The policies restrict access to customer records, provide for employee training concerning the authorized and unauthorized use of CPNI, and require the confidentiality of customer records and CPNI. The Company expects its employees and agents to act in accordance with all governing State and Federal laws, rules and regulations. Any of the Company's employees that engage in the unauthorized use, sharing or disclosure of CPNI will be subject to disciplinary action, including suspension and possible termination of employment.

Respectfully submitted,

Mark Ricigliano
